

# SOLAR EVENTS

**Solarevents.org**

## Solar Day

**Who:** Students and Teachers

**What:** National Awareness Day of the Sun-Earth Connection Science to enhance science, mathematics and technology education

**When:** April 27, 2001

**Where:** In your school or classroom

**How:**

- Science Presentations Web Resources - <http://sec.gsfc.nasa.gov>
- Support materials for the classroom
- Solar Day Education Kit
- E-mail Mentoring

## Eclipse 2001 Live from Southern Africa

**Who:** Sun-Earth Connection Scientists, Museums, Science Centers, Planetaria, Special Interest Groups (such as Scouts, Boys and Girls Clubs), archived for classroom teachers use during the school year

**What:** A total solar eclipse June 2001 creates a popular, high-visibility natural event. This will be webcasted from Southern Africa via the internet or live through satellite

**When:** June 21, 2001

**Where:** It can happen anywhere

**How:** This event will provide a way for informal science venues to engage various audiences by highlighting current NASA Sun-Earth Connection events, research, data and scientists.
